

PICATINNY RAIL SCW STOCK

Your rear-facing picatinny rail equipped rifle can have the toughness of Maxim Defense. Built with the same functionality and durability as our best-selling Gen-6 and Gen-7 stocks for AR-15, your Picatinny Rail Mount equipped rifle finally has a stock option suited for real-world use. Solid attachment, quick deployment, and 5-positions of adjustment make this the perfect choice for your hard-use rifle.

COLORS
