

MD:15 DUTY

The Maxim Defense **MD:15 Duty** is a mission-ready 5.56 NATO rifle built for consistent performance in dynamic environments. Whether you're working in tight quarters, from vehicles, or across open ground, it **offers smooth handling, refined balance, and rugged dependability without the unnecessary extras.** With barrel lengths from 8.5" to 16" and multiple stock options—including SCW, CQB, and B5 Bravo—it's a versatile platform designed to meet a wide range of operational needs.

Crafted with precision-machined internals, an ALG Defense trigger, and enhanced MIL-SPEC components, the MD:15 Duty delivers on both control and durability. A full-length 1913 Picatinny rail and M-LOK™ compatible handguard ensure it's ready for mission-critical upgrades right out of the box. From range days to real-world applications, this rifle is all about function. **Everything you need, nothing you don't.**
