.22

MS:22

We've carried over M-Kore Technology to select small caliber suppressors that benefited most from it.

The .22LR is notoriously dirty, so the integrated carbon cutters make cleaning as simple as possible. And M-Kore's ample baffle spacing minimizes small crevices to make it easy to scrub in hard to reach places.

FEATURES

- » M-Kore™ Technology
- » No barrel length restrictions
- » Integrated carbon cutters for easy tube cleaning
- » Right-hand threads from core to mount
- » No barrel length restrictions
- » User serviceable
- » Disassembles with common tools
